

PRESIDENTIAL VISIT ANNOUNCEMENT FROM ELKHART COUNTY BUSINESS!!!

In his visit to Elkhart today **President Obama** will learn that the **AUTOMOTIVE BAILOUT** is very **important to Michiana workers!** Elkhart-based Kem Krest would like to announce a **new 4-million-dollar contract** with Saturn Motors. While this is good news for Kem Krest, the Elkhart community, and our nearly 100 local employees the deal also puts more of our business in the hands of a struggling U.S. automaker - GM. GM is Saturn's parent company and Kem Krest's new contract hinges solely on the economic security of GM.

Today Kem Krest owners will attend President Obama's town hall meeting. They hope to speak to him briefly about his continued support of GM and their suppliers here in Michiana. Beginning March 2nd Kem Krest will provide distribution and supply chain management services for Saturn. Kem Krest's Elkhart warehouses already stock the GM Chemical line, so providing product for Saturn only strengthens the relationship between Kem Krest and the "Big Three Automaker".

This is the third new contract Kem Krest has earned in the past three months; the first was with Hyundai Motor Company and the second with GM Middle East. To speak to Kem Krest owner Amish Shah about the needs of Elkhart businesses during this economic recession and the potential impact of Obama's visit contact Amish Shah at 574-320-5836.
